

shaping young brains...
...shaping young futures

Veronica Lawrence and Claire Stevenson have written this facilitator's manual in a way that is hopefully easy to understand and use so that you can create your own Northamptonshire Baby Room Project© - parents course.

"We invite you to use this facilitator's manual imaginatively as a way of inspiring everyone working and living with babies. We encourage you to experiment with the materials adding your own creative twists and quirks. We are confident that The Northamptonshire Baby Room Project© - parents course can increase people's knowledge base and excite and inspire people to think again about how they work with babies: the very youngest children entrusted to their care.

May you enjoy this programme and allow your enthusiasm to inspire others."

Veronica, Claire and Susanne
